

DENALI WATER SOLUTIONS

JOIN OUR MINE RECLAMATION TEAM

Denali Water Solutions is Hiring an **Equipment Operator**

to join our Mine Reclamation team in Pennsylvania.

Job Summary: This position is responsible for the safe and efficient operation of all mine reclamation equipment including wheel loader, portable mixer, tractor, spreader, disc, and seeder. Daily responsibilities include processing incoming material, sampling, and limited paperwork.

Experience in farming and operating heavy equipment is a plus as well as mechanical ability. All jobs are located on active and/or abandoned mine sites, Completion of Mine Safety and Health Administration training is required upon hiring.

The position reports to the Operations Manager. Must be able to operate large pieces of equipment in a safe and effective manner and be able to self-perform preventative maintenance and troubleshoot minor issues with the operating equipment.

Essential Job Functions

- Operate loader and processing equipment.
- Perform pH, temperature and percent solids testing on-site.
- Receive trucks and record manifests.
- Operate pump to empty sumps during rain events.
- Assist with setup, teardown and loading of equipment.
- Land application of processed material on permitted fields using farm tractor, spreader, disc, and seeder.
- Inspect and maintain all equipment being used in the field.
- Be aware of all equipment malfunctions and parts repair or replacement.

Qualifications

- High School Diploma/GED
- Valid driver's license
- 2-3 years' experience preferred.
- Must be able to pass drug screen.
- Must be able to pass background screen.
- Must have clean driving record.

Benefits:

We offer an extensive and competitive benefit plan for all our full-time employees as we value their time and commitment.
